### 5-YEAR PLAN PHA FISCAL YEARS 2005 – 2009

[24 CFR Part 903.5]

#### A. Mission

	e PHA's mission for serving the needs of low-income, very low income, and extremely low-income in the PHA's jurisdiction. (Select one of the choices below)
	The mission of the PHA is the same as that of the Department of Housing and Urban Development: To promote adequate and affordable housing, economic opportunity and a suitable living environment free from discrimination.
$\boxtimes$	The PHA's mission is: (state mission here)
	In adopting this mission statement, the board envisioned that there were many

In adopting this mission statement, the board envisioned that there were many means by which the Authority could provide housing assistance from development and ownership of housing to the provider of housing subsidies. Further, it is understood that these mechanisms would change over time (primarily as market forces change). It should be noted that this mission is consistent with the QHWARA, which also envisions a broad and changing landscape for public housing.

This mission also makes clear that the Agency has a rod that extemds beyond simply housing assistance. The housing provided must support families, neighborhoods, and economic self-sufficiency. Among other matters, this means that the Agency should not provide housing that concentrates poverty or fosters dependence. At the same time, however, the PHA must use prudent use of the public dollars and every "unit" of housing provided must be at a cost that is reasonable, balancing the Agency's monetary goals with the non-monetary goals. Further, the PHA will promote a suitable living environment without discrimination. The PHA will recognize residents as it ultimate customer, and improve its management and service delivery efforts through effective and efficient management of the Housing Authority staff, seek problem solving partnership with residents, community and government leadership.

## RESIDENT ASSESSMENT SYSTEM SURVEY (RASS)

The PHA will continue to address the concerns of all of its residents by working with resident councils. The maintenance department cuts the grass and shrubs. We have a trash truck which makes rounds to all of the complexes, three times a week to pick up trash and litter. The PHA addresses this with all new residents, they are advised that this is their new home and as such to take pride and keep up the areas they are responsible for, mainly, front and back doors. It has also been pointed out to the residents that need community service hours, that they can achieve these hours by helping to maintain their neighborhoods and keeping them free of trash and litter.

#### **DECONCENTRATION POLICY**

The Selma Housing Authority shall make every effort to deconcentrate families of certain income characteristics within the HA complexes. To achieve this, The Selma Housing Authority may offer incentives for eligible families having higher incomes to occupy dwelling units in projects predominantly occupied by eligible families having lower incomes, and provide for occupancy of eligible families having lower incomes in project predominantly occupied by eligible families having higher incomes. Incentives by the Housing Authority allow for the eligible family to have the sole discretion in determining whether to accept the incentive and the agency may not take any adverse action toward any eligible family for choosing not to accept these incentives. The skipping of a family on the waiting list to reach another family to implement this Deconcentration Policy shall not be considered an adverse action. As such, the Housing Authority will continue to accept applications and place the individuals on a waiting list. Selection will be made based on a combination of the local preferences and an income target mix. Any eligible family, who qualifies as a higher income family may accept a dwelling unit assignment and be placed randomly into a vacant housing unit.

The Selma Housing Authority will track the income mix within each project in an effort to avoid a concentration of higher or lower income families in any one project.

Each project has greater than forty (40) percent of the families with thirty (30) percent or less of the median income.

Monitoring will be conducted to confirm that at least forty (40) percent of all leased units will be within thirty (30) percent of median income. The calculations listed above exclude vacant units and were averaged by occupied units.

Efforts through marketing and outreach shall be made to increase the number of families with incomes greater than thirty (30) percent of median income in the projects noted above in order to avoid concentrations of very low-income families in the projects as per the requirements of the OHWRA of 1998.
